

Hello Parents, your child BYOx computer is in S MODE, to be able to load the BYOx Connect and BYOx.exe to student computers – you will need to switch out of S MODE. Please follow the below instructions

Windows 10: How to Switch Out of S Mode

Can I switch out of Windows 10 S mode to install apps that are not offered in the Microsoft Store?

Windows 10 Home in S mode helps keep your device secure by only allowing verified Microsoft Store Applications to be installed. You can switch out of Windows 10 Home in S mode if you want to install programs or applications that are not offered in the Microsoft store. You will not be able to go back to Windows 10 in S mode once you have switched out of s mode.

Use the steps below to switch your system out of S mode.

1. Click the **Start Start** menu and select **Settings**.
2. Click **Update & Security**.
3. Select **Activation** from the menu on the left.
4. Click **Go to the Store**.
5. Click the Get button, then click Install.
